SEED CATALOGUE

FOR

SCHOOL GARDENS

The Directors of School Agriculture hereby announce that arrangements have been made to insure a reliable supply of seeds for school garden work. The Co-operative Branch of the Department of Agriculture has undertaken to supply schools with seeds of vegetables, flowers, grasses, cereals and trees at prices considerably lower than those usually charged. The cereals will be obtained by the Co-operative Branch from the University Experimental Farm, Saskatoon, and the vegetables, flowers and grasses from the William Rennie Company, Toronto.

Seeds in Packets

The seeds are put up in packets and upon each packet is printed general instructions for planting and cultivation.

Price

The price for each packet is 4 cents, but the 27 packets named in groups (a) and (b) will be supplied at the price of \$1 per group (postage prepaid).

Seeds only for School Purposes

It is to be understood that these prices refer only to seeds supplied to teachers or pupils of the public or high schools of the province and that such seeds will be used solely for educational purposes in the school garden or in the pupils' own home gardens which are conducted in connection with school work and under the supervision of the teacher.

Size of Packet

Each packet will contain seeds of one variety sufficient for four or five individual plots.

Orders

Orders should be written plainly on the order sheet supplied with this catalogue and forwarded with the necessary payment (money order or postal note) to the Director of the Co-operative Organisation Branch, Department of Agriculture, Regina. The order sheet should be signed by the teacher and the secretary treasurer of the school district.

NOTE.—*Keep a copy of your order.*

Postage Prepaid

All orders will be promptly filled and forwarded prepaid by parcel post to the nearest post office.

Orders will be filled on and after January 15, 1916, and should be mailed not later than March 15, 1916. Teachers are advised to attend to this matter as soon as possible in the new year as the stock of seeds is limited. Orders reaching the Co-operative Branch after March 15, will receive attention providing the supply is not exhausted.

Pupils should be encouraged to grow their own seed whenever possible and to improve their stock by careful selection.
